BLADE TECHNOLOGY

SEASONING

Careful attention is required to guard against drying the wood too rapidly, particularly in wood with thicker dimension. If not dried properly, the non-uniform stresses involved can cause cupping or twisting upon sub-sequent re-sawing or working. Once wood has been dried, it is allowed to "rest" in a climate controlled environment for several days to several months.

GLUE

The use of different glue results in different playing characteristics. Different woods need different glue for best performance. At STIGA we use the best glue and gluing techniques for the best results for each type and combination of wood.

MADE IN SWEDEN FOR THE WORLD CHAMPIONS

The search for the right blade can be a huge challenge, even for the most experienced players. The best blade for one player is not necessarily the best choice for another, as we each have our own personal touch and style, and we tend to react to blades in different ways.

At STIGA we make this important choice easier by ensuring that every blade is of superior quality, and we make blades with the variety of special playing characteristics demanded by experienced players and coaches.

WOOD

Our design process begins by considering the playing characteristics of each of the woods we use. Remember that we're talking in general terms here, since each tree, and even each set of wood, is different. Fortunately, here at STIGA we benefit from having played with hundreds of versions of particular models, so we have learned from vast testing and experience how to design the blades "personalities" to perfectly suit the next generation of World Champions.

CHOOSE THE RIGHT STIGA BLADE

Please observe that this blade table only compares the STIGA blades related to each other. The following characteristics decide the table mentioned beneath. The hardness of the veneers, the blades total weight, the thickness of the blade and the different

GRIP

WRB THE WRB SYSTEM accelerates the blade face for faster returns, more power and extra sensitivity of touch.

CR THE CR SYSTEM is when front part of the blade is UV-finished, which yields a reasonably increased speed to the ball.

OVER SIZE OVERSIZE has thicker blade that offers approximately 10% extra speed compared to conventional blades. Larger head offers extra stability of touch and feel.

CRYSTAL TECHNOLOGY THE CRYSTAL TECHNOLOGY increase your speed. Normal blade treatments use regular lacquer, but Crystal Technology employs a transparent hydrophilic gel lacquer that STIGA specially developed.

VPS VPS (The Veneer Precision System) treats the veneers with a unique and exact heating and cooling process. This results in a very solid balance and fantastic feel.

DIAMOND TOUCH DIAMOND TOUCH technology gives the outer veneers extra hardness and the surface an incredibly smooth finish.

NCT TECHNOLOGY THE NCT TECHNOLOGY blades use our nano technology.

effects of the unique STIGA blade technologies (WRB, CR etc...). Use this blade table as guidance for you to make the right choice of STIGA blades.

TIGGA OFFICIAL BLADE SUPPLIER

EMERALD VPS V WITH DIAMOND TOUCH

The Emerald VPS V - with Diamond Touch is a lightweight 5-ply offensive blade built around two hand-selected middle veneers that are special temperature treated (VPS-technology). This gives the blade a unique stability and combined with the new, beautiful green Ebenholz outer veneers, the Emerald VPS V offers a sensational feeling, ideal for offensive players who demands good speed combined with control. The final finish by the Diamond Touch technology gives the outer surface extra hardness and an incredibly smooth finish.

INFINITY VPS V WITH DIAMOND TOUCH

The Infinity VPS V - with Diamond Touch is a lightweight 5-ply offensive blade built around two hand-selected middle veneers that are special temperature treated (VPS-technology). This gives the blade a unique stability and the Infinity VPS V is ideal for offensive players who demands good speed combined with control. The final finish by the Diamond Touch technology gives the outer surface extra hardness and an incredibly smooth finish.

HARDWOOD SERIES

SAYAKA HIRANO
JAPAN NATIONAL TEAM

WHEN NATURE MEETS SCIENCE

Hardwood blades balance speed, weight, flexibility and trajectory for an unbeatable formula. These are developed in close cooperation with our top players and the Chinese National Team to meet their demands for the best high-performance blades. Each ply of the Hardwoods carefully handpicked to ensure the very best wood grain and quality. The high quality wood used in these blades is very hard to find, so producing these blades is a time-consuming and labor-intensive process. The results are worth it!

The mixture of special and unique Hardwood, enhanced with STIGA's scientific engineering and NCT (Nano Composite Technology) results in the hardwood blades that will be most in demand for the future!

- Extreme speed and stiffness for the player who want best possible speed and feeling combined
- Increased sweet spot thanks to the stability of Ebenholz veneers

CC SERIES

LIU GUOLIANG
HEAD COACH
CHINA NATIONAL TEAM

PURE POWER

The very unique CC blades are developed in close cooperation with Liu Guoliang, Xu Xin and other members of the Chinese National Team. The Chinese team is always talking about how important the trajectory of the ball is. With a longer trajectory you can push your opponent away from the table and take control of rallies and the game. Long trajectory and power were the primary demands of the Chinese National Team, so in combination with STIGA's know-how in blade manufacturing, the CC5 and CC7 were developed to meet those demands. Both the CC5 and CC7 have carbon layers inside, along with STIGA's famous NCT and Crystal treatment on the surface.

CLIPPER CC

ART. NO. 1021-XX

CONTROL **62**

SPEED **118**

SPEED **142**

ELASTICITY **STIFF**

VENEER 5+2 STYLE OFF+

- Offensive 5+2-ply blade with Carbon Powder between its veneers which provide extra power and speed.
- Outstanding long trajectory in topspin rallies.
- For the attacking player who is looking to play topspin versus topspin.

NCT SERIES

XU XIN
RANK NO 1
ON ITTF'S WORLD RANKING MARCH 2014

CHINESE NATIONAL
TABLE TENNIS TEAM
STIGA OFFICIAL BLADE
SUPPLIER

INTENSITY CARBON

ART. NO. 1023-XX

- 5-ply offensive blade with two carbon layers
- Superb power and speed to all strokes thanks to the carbon layers
- Great trajectory and speed with an outstanding balance
- For the attacking player

INTENSITY NCT

ART. NO. 1022-XX

- 5-ply offensive blade with great feeling and control
- Great trajectory and speed with an outstanding balance
- For the controlled attacker
- The NCT allows you to hit the ball harder without sacrificing any control
- Used by Xu Xin

HYBRID WOOD NCT

ART. NO. 1039-XX

- Dynamic and very powerful 9-ply blade
- Designed for the modern attacking game with powerful topspin shots
- Tremendous control and feel despite the high speed features
- The NCT allows you to hit the ball harder without sacrificing any control

ALLROUND WOOD NCT

ART. NO. 1059-XX

- Lightweight 5-ply allround blade with outstanding feeling and control
- Perfect balance between speed, weight and control
- The NCT allows you to hit the ball harder without sacrificing any control

OFFENSIVE WOOD NCT

ART. NO. 1049-XX

- Lightweight 5-ply offensive blade with great feeling and control
- Based on the lightweight attacking Offensive Classic blade
- Designed for a technical and fast game with full control
- The NCT allows you to hit the ball harder without sacrificing any control

DEFENSIVE WOOD NCT

ART. NO. 1027-XX

- Lightweight 5-ply blade with great feeling and control
- For a very controlled game and also a powerful attacking game as a defender
- The NCT allows you to hit the ball harder without sacrificing any control

OPTIMUM SERIES

JENS LUNDQUIST
SWEDISH NATIONAL TEAM

WHEN THE SURFACE IS CRYSTAL CLEAR

Crystal Technology is STIGA's unique process that hardens the surface of the blade, thus increasing its speed. You'll be amazed both by the crystalline appearance of blades treated with Crystal Technology and also by the extra zip on all your shots.

OPTIMUM PLUS

- Increased surface hardness and speed thanks to the Crystal Technology

CR SERIES

ZHENQI BARTHEL
GERMAN NATIONAL TEAM

HARD AS A ROCK.

The CR (Combi Revolution) System is a revolution in blade technology. The surface of the blade is UV-finished. This yields an increase in speed. A CR System blade is at least 21% faster than a conventional blade.

CLIPPER CR

ART. NO. 2025-XX

- Offensive 7-ply blade
- The Clipper series is one of the most popular STIGA blade series ever
- Famous throughout the world among power players for its speed
- Used by many world class players throughout the years
- Increased speed compared to the regular Clipper Wood thanks to the CR system

OFFENSIVE CR

ART. NO. 2035-XX

- Lightweight 5-ply blade
- Built to suite the fast and technical offensive/allround player
- Increased speed with maintained "STIGA touch" because of the CR system
- WRB-system gives faster returns, more power and extra sensitivity of touch

HYPERTECH CR 35/45

ART. NO. 2075-XX

- Lightweight 5-ply allround blade
- Suitable for experienced players as well as beginners
- One side is UV-finished with 45° hardness (=higher speed) and the other side is UV-finished with 35° hardness (=better control)
- For players who want good speed on the forehand and better control on the backhand side

ALLROUND CR

ART. NO. 2055-XX

- Lightweight 5-ply allround blade
- The perfect balance between speed, weight and feel
- Increased speed with maintained "STIGA touch" because of the CR system.

- The thicker blade offers approximately 10% extra speed compared to conventional blades

THE CLASSICS

THE MODERNIZED CLASSICS

The Allround Classic and The Offensive Classic is the first blades manufactured by STIGA. It has been used for over 40 years by many world champions. Today we have updated them with Carbon layers resulting in two blades with more speed and power but still as beautiful as their ancestors. The Allround Classic Carbon and The Offensive Classic Carbon.

ULF "TICKAN" CARLSSON

Ulf "Tickan" Carlsson, the Swedish National Team Men's coach, has rejoined the STIGA Team. We are very glad to have him back onboard! Tickan has tons of experience from his time as a National Team player and currently as a coach, and he has a big passion for table tennis. Tickan will help with product development, scouting players, contact with other coaches, and promoting STIGA around the world.

RUBBER TECHNOLOGY

ALL STIGA RUBBERS ARE APPROVED BY ITTF

THE ACS-TECHNOLOGY allows very high speed to be combined with max springiness/elasticity in an ultralight rubber with outstanding control.

THE SYNERGY TECH rubber is the combined collaborative efforts of top table tennis chemists from Sweden and Japan.

BUILT-IN SPEED GLUE EFFECT when you want to achieve maximum power.

MEGA TENSION TECHNOLOGY creates more tension without increasing the weight of the rubber, causing quicker rubber recovery.

TRANSTENSION SPONGE and the exciting material, we have found a formula that will revolutionize and generate maximum tension and sponge power.

THE NCT TECH rubber use our nano technology, and are designed for the era that begins with the ITTF speed glue ban.

LONG TRAJECTORY: We focused on creating a longer trajectory on the ball, as a long trajectory in today's game is more and more important. The combination of spin, speed and long trajectory is unique on STIGA's rubbers; you have never felt this level of play before.

APS: The Advanced Pimple Structure with straight shaped pimples makes the rubber adapt to the ball like never before and provides an explosive and spinny rubber that is reliable in every situation.

OCS: The brand new Oxygen Capsule System is our most advanced rubber technology, specially adapted to the new poly ball. The OCS-sponge generates a very high amount of catapult effect thanks to the precisely measured size of the air pockets. This technology is developed to generate the maximum amount of speed and spin possible.

STYLE SPIN ELASTIC SPONGE SOFT

- The adoption of the poly ball changes the game for many seasoned all-around players.
- STIGA Airoc S is designed to expand shot selection and feel for control players.
- Creating a rubber sheet to provide this dynamic range of play is made possible thanks to STIGA's new OCS sponge technology (Oxygen Capsule System).
- We have formulated the air pockets within the sponge to withstand the strongest attacks while providing enough spring to go offensive on demand.
- For the ability to control the tempo and to have multiple ways to score then STIGA Airoc S is your perfect choice.

CONTROL 80

SPEED 149

SPIN 128

STYLE SPIN ELASTIC SPONGE MEDIUM

- Research shows the new ITTF tolerances of poly ball impact the ability to create and maintain spin.
- STIGA Airoc M was created to combat this potential loss of power.
- STIGA Airoc M utilizes our newest OCS sponge technology (Oxygen Capsule System) to increase catapult effect without changing the spin ratio. This allows aggressive players to maintain the same spin/speed proportions they have always enjoyed.
- The key to this evolutionary advancement is the delicate balance between the size of the air pockets within the sponge and the elasticity of the top sheet. STIGA's engineers tested many different pip designs and tensions to achieve the perfect rubber for the attacking player.

UNLEASH THE POWER OF THE LONG TRAJECTORY

With the Calibra series we have created a totally new dimension to the game. We focused on creating a longer trajectory on the ball, as a long trajectory in today's game is more and more important. The combination of spin, speed and long trajectory is unique to this rubber series; you have never felt this level of

play before. With the Calibra rubbers you will be able to perform strokes and shots never before possible. You will still have control for all the small shots and service return, but when you are attacking you will be in a totally new world. The Calibra series will take your game to another level.

CALIBRA LT
ART. NO. 9825-XX RED

ALMANA SOUND SYNERGY TECH

ART. NO. 9886-XX RED / ART. NO. 9887-XX BLACK
SPONGE 1,8/2,0/MAX

- Almana Sound ST is very bouncy and gives a nice catapult effect
- The Soft sponge and top sheet are excellent for looping and counterlooping

NEOS SOUND SYNERGY TECH

ART. NO. 9882-XX RED / ART. NO. 9883-XX BLACK
SPONGE 1,8/2,0/MAX

- Neos Sound ST has a soft sponge with great feeling and good speed
- Developed in our research laboratory in collaboration with leading world-class players

NEOS SYNERGY TECH

ART. NO. 9880-XX RED / ART. NO. 9881-XX BLACK
SPONGE 1,8/2,0/MAX

- Neos ST has a medium hard sponge
- Extremely resilient surface provides great spin and speed

CARBO MC

ART. NO. 9864-XX RED / ART. NO. 9865-XX BLACK
SPONGE 1,8/2,0

- Uses a medium sponge with great spin
- Designed for club and tournament players looking for a spiny rubber with excellent control

NEOS

ART. NO. 9842-XX RED / ART. NO. 9843-XX BLACK
SPONGE 1,8/2,0/MAX

- Neos is a very interesting rubber for allround/offensive players
- Medium sponge, with great rubber recovery abilities

NEOS SOUND

ART. NO. 9844-XX RED / ART. NO. 9845-XX BLACK
SPONGE 1,8/2,0/MAX

- Neos Sound is an offensive rubber with soft sponge
- Perfect for players who like the feeling and sound of soft sponge

INNOVA ULTRA LIGHT SYNERGY TECH

ART. NO. 9884-XX RED / ART. NO. 9885-XX BLACK
SPONGE 1,8/2,0/MAX

- With Innova Ultra Light ST you will be able to deliver excellent spin, speed and power
- The soft sponge in combination with Synergy Tech technology gives the player a fantastic feeling

OPTIMUM MP

ART. NO. 9870-XX RED / ART. NO. 9871-XX BLACK
SPONGE 1,8/2,0/MAX

- Optimum MP is a combination of the Molecule Power - and the Nano Composite technology
- Medium sponge with 50% synthetic rubber and 50% a mixture of natural rubber
- Great increase of energy release when striking the ball

ALMANA

ART. NO. 9856-XX RED / ART. NO. 9857-XX BLACK
SPONGE 1,8/2,0/MAX

- Excellent for looping and counter-looping
- Almana uses the same technologies as Almana Sound but with a medium sponge

NEOS TACKY

ART. NO. 9846-XX RED / ART. NO. 9847-XX BLACK
SPONGE 1,8/2,0/MAX

- Neos Tacky offers control and is very sticky, providing plenty of spin
- Medium sponge with excellent spin on slow balls

INNOVA PREMIUM

ART. NO. 9838-XX RED
ART. NO. 9839-XX BLACK
SPONGE 1,8/2,0/MAX

- Innova Premium has the thicker ACS-sponge with medium hardness combined with an ultra-thin surface that gives the player outstanding touch
- Perfect for the allround player who focuses on control

MAGNA

ART. NO. 9840-XX RED
ART. NO. 9841-XX BLACK
SPONGE 1,8/2,0/MAX

- Magna has a medium sponge with natural rubber finish
- Good spin features due to the Natural Rubber Finish Technology
- Perfect for the allround/offensive club player

ALMANA SOUND

ART. NO. 9858-XX RED / ART. NO. 9859-XX BLACK
SPONGE 1,8/2,0/MAX

- Bouncy rubber with good catapult effect
- Almana Sound is like regular Almana but with a softer sponge

CARBO

ART. NO. 9860-XX RED / ART. NO. 9861-XX BLACK
SPONGE 1,8/2,0/MAX

- Carbo has a medium sponge with loud sound when hitting the ball
- Mega Tension Technology creates more tension and quicker rubber recovery

CARBO SOUND

ART. NO. 9862-XX RED / ART. NO. 9863-XX BLACK
SPONGE 1,8/2,0/MAX

- Carbo Sound has a soft sponge with good catapult effect
- Perfect for players who want to win points using aggressive spin.

MENDO MP

ART. NO. 9832-XX RED
ART. NO. 9833-XX BLACK
SPONGE 1,8/2,0/MAX

- Mendo MP is a more dynamic, softer and more sensitive hard rubber
- With a medium hard sponge

INNOVA

ART. NO. 9834-XX RED
ART. NO. 9835-XX BLACK
SPONGE 1,8/2,0/MAX

- Allround/offensive rubber with medium hard sponge
- Approximately 10% lighter than regular rubber

MENDO

ART. NO. 9804-XX RED
ART. NO. 9805-XX BLACK
SPONGE 1,5/1,8/2,0/MAX

- Mendo is a classic rubber ideal for the offensive player who is looking for control and feeling
- With a medium hard, resilient sponge

MENDO ENERGY

ART. NO. 9817-XX RED
ART. NO. 9818-XX BLACK
SPONGE 1,8/2,0/MAX

- Mendo Energy is a Power-Soft-Rubber with world class world class quality
- Creates maximum friction on the ball
- Perfect for the allround/offensive club player

INNOVA ULTRA LIGHT

ART. NO. 9836-XX RED
ART. NO. 9837-XX BLACK
SPONGE 1,8/2,0/MAX

- Innova Ultra Light uses the ACS-Technology in the ultimate way
- Fantastic feeling in this ultra soft rubber
- Approximately 10% lighter than a regular rubber

COBRA 2000

ART. NO. 9830-XX RED
ART. NO. 9831-XX BLACK
SPONGE 1,5/1,8/2,0

- Cobra 2000 has a medium sponge with a specially selected rubber mixture
- It absorbs a lot of your opponent's spin and gives your play more control
- Perfect rubber for the player learning to create more advanced shots

CHOP & DRIVE

ART. NO. 9819-XX RED
ART. NO. 9820-XX BLACK
SPONGE 1,1/1,5/1,8

- Very soft sponge absorbs the ball and increases the contact time
- Produces excessive underspin when required
- Suits the defensive/allround player

EVO

ART. NO. 9205-XX RED
ART. NO. 9206-XX BLACK
SPONGE 1,8

- Evo is an exceptional allround rubber for players wanting to develop their game
- The medium sponge guarantees ease in learning all modern offensive strokes
- Suited for an offensive style of play with a focus on control

CHINA EXTREME

ART. NO. 9815-XX RED
ART. NO. 9816-XX BLACK
SPONGE 1,8/2,1

- China Extreme is a very tacky rubber for competition play
- The hard sponge and tacky surface gives maximum spin when you need it the most

PIMPLE OUT & ANTI SPIN RUBBERS

ROYAL

ART. NO. 9801-XX RED / ART. NO. 9802-XX BLACK
SPONGE 1,5/1,8/2,0

- Royal features a medium sponge with STIGA's fastest short pips-out surface
- If you want to finish the point quickly, Royal delivers explosive power and sting

CLIPPA

ART. NO. 9808-XX RED
ART. NO. 9809-XX BLACK
SPONGE 1,5/1,8/2,0

- STIGA Legend Liu Guoliang's weapon of choice as an active player
- Short pimples rubber combined with a medium sponge
- Ideal for fast, attacking play near the table

RADICAL

ART. NO. 9810-XX RED
ART. NO. 9811-XX BLACK
SPONGE 1,8/2,0/MAX

- A short pimples out rubber with ACS-Technology
- Comes with medium sponges

J.M.S EVO 1

ART. NO. 9290-20 RED
ART. NO. 9291-20 BLACK
SPONGE 1,8

- A perfect allround rubber with medium sponge
- Like Evo, EVO 1 is perfectly suited for an offensive style of play with a focus on control

RUBBER PROTECTOR

ART. NO. 9922-00

Protects against dust and stains.

ENERGY ABSORBER

ART. NO. 9812-XX BLACK
SPONGE 1,6/2,0

- Energy Absorber is a great anti spin rubber which controls the fiercest of spins
- Absorbs the opponent's powerful strokes and allows you to block and counter attack
- Soft sponge for maximum feeling

DESTROYER

ART. NO. 9813-XX RED
ART. NO. 9814-XX BLACK
SPONGE 0X/1,0/1,5

- Destroyer is a long pimple rubber with soft sponge for the defensive player
- The pimples are shaped to get maximum response from individual techniques

CONTROL 42

SPEED 98

SPIN 99

VENEER 5 STYLE OFF+

RESPONSE ★★★★★

ART. NO. 1321-01

5 star Response is the ultimate selection for the direct power-hitting player who concentrates primarily on pure speed rather than spin. The ACS-technology allows very high speed to be combined with maximum springiness/elasticity in an ultralight rubber with outstanding control.

CONTROL 44

SPEED 95

SPIN 96

VENEER 5 STYLE OFF+

SUPREME ★★★★★
ART. NO. 1423-01

Serious players can now experience much greater speed and spin in their game. Without sacrificing any control thanks to the Nano composite technology (NCT) used in the 4 star Supreme. The ACS-technology allows very high speed to be combined with maximum springiness/elasticity in an ultralight rubber with outstanding control.

VIRTUE ★★★★★
ART. NO. 1422-34

The 4 star Virtue is the ultimate combination of two revolutionary technologies; ACS and TUBE, offering you increased speed, spin and control. The ACS-technology allows very high speed to be combined with maximum springiness/elasticity in an ultralight rubber with outstanding control. The STIGA TUBE bats are manufactured using a new technology where the middle veneer has gone through a revolutionary treatment.

REVOLTER ★★★★★
ART. NO. 1421-01

4 star Revolter is ideal for offensive minded players who want that extra touch and control when attacking and counterattacking. The ACS-technology allows very high speed to be combined with maximum springiness/elasticity in an ultralight rubber with outstanding control.

SUPERIOR ★★★
ART. NO. 1523-01

3 star Superior is perfect for the powerful varied offence player who wants unrivalled levels of power and feeling in their game. The ACS-technology allows very high speed to be combined with maximum springiness/elasticity in an ultralight rubber with outstanding control.

VELOCITY ★★★
ART. NO. 1522-34

The ACS-technology allows very high speed to be combined with maximum springiness/elasticity in an ultralight rubber with outstanding control. STIGA has programmed its high tech bat manufacturing machines to mill "micro-channels" lengthways in the middle ply of the bat. The channels are then filled with different material depending on the bats desired characteristics.

REACTIVE ★★★
ART. NO. 1521-01

The result of more than 60 years of research and development 3 star Reactive is stylishly designed and perfectly balanced for determined attacking players wanting precise power. WRB: the WRB system accelerates the blade face for faster returns, more power and extra sensitivity of touch.

SUBLIME ★★
ART. NO. 1623-01

Thanks to the air capsule system sponge used in the 2 star Sublime, it is very easy for the player to get the extra power and control needed for smashed and attack

VAPOUR
ART. NO. 1622-34

2 star Vapour gives the feeling of absolute control under pressure, which is required for successful speed oriented attacking game.

ROCKET ★★
ART. NO. 1621-01

Rocket 2 star is suited for players looking for more control at higher speeds.

SENSE
ART. NO. 1823-37

Hobby Sense is the perfect bat for players who want much greater touch and control in their active allround game.

TOUCH

ART. NO. 1822-01

Hobby Touch is developed for the player who requires a high quality recreational bat with excellent ball control.

STREAM

ART. NO. 1724-01

Set Stream is developed for the player who requires a high quality recreational bat with excellent ball control.

STORMER ★
ART. NO. 1723-01

1 star Stormer suits the controlled attacker who wants touch and power in all their shots.

WINNER ★
ART. NO. 1722-34

1 star Winner is the perfect bat for players who want much greater touch and control in their active allround game.

RADICAL ★
ART. NO. 1721-01

1 star Radical is the optimum choice for control players who want to develop their own style.

ACTION
ART. NO. 1824-01

Set Action is developed for the player who requires a high quality recreational bat with excellent ball control
